Comments Report

7. COURSE EVALUATION (PART V)

7.3) Please comment on what you feel are the positive and negative aspects of your instructor and his/her teaching outlook:

SLOW DOWN WHEN EXPLAINING
SOMETIMES HE DOES TOO FAST AND MAKES SOME
MISTAKES OR IS HARD TO FOLLOW

I thought he taught the material well.
Went too fast

Great helpful teacher, loved being in his class

He is a good teacher. The only thing he needs to improve on is the management of time. Taught 5 chapters ahead of what we were being tested on at one point

very helpful and knowledgeable

He needs to slow down and understand we took this class because calc was hard. But he gave good explanation to ~~our~~ questions. He should give more step by step in examples. Very Smart guy + knows material

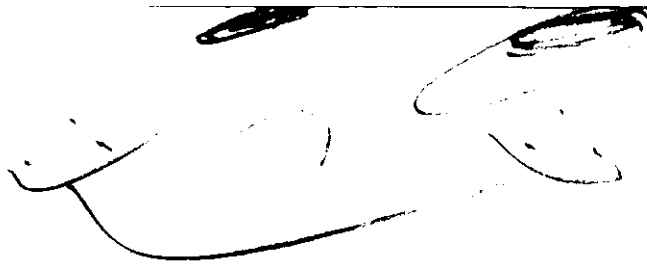

The way Mr. Farman's teaching is a little too complicated in some
 everything proficiently.
 For students to learn proficiently in algebra or mathematics I think
 his teaching so that it is more of a challenge work.

7.4) Comment on what you feel are the positive and negative aspects of this course:

N/A

Very fast course

Helpful course to brush up before you go into calculus

Material is basic pre-calculus, but is graded on use of equations and not if the answer is right or not

positive - we understood material
negative - exams were much more difficult than expected
