7. COURSE EVALUATION (PART V)

7.3) Please comment on what you feel are the positive and negative aspects of your instructor and his/her teaching outlook:

Blake was a good TA for a hard subject and an extremely hard proffessor.

He was always willing to help out before, during, & after class. He knew the subject was difficult and wanted us to better our understanding

Positive aspects are that he is easy to understand and knows the material well
Negative aspects are that recistation time is shortened by weekly Quiz

Positive - Concise and coherent - Explains thoroughly when need be

Negative - Messes up problems sometimes, but gets back on track

He was open minded.

He went over the material better then the teacher and I understand more of it

- good pro TA, I can tell it's hard for him to teach b/c he basically has to reteach us b/c our prof. is horrible

He was very understanding of the problem's difficulty and would do his best to be patient and help.

7.4) Comment on what you feel are the positive and negative aspects of this course:

Hard material to learn

Positive = Provides opportunity to learn more about integrals
and applications.

Too much homework
